---

## PROFESSIONAL SUMMARY

Backend Developer with 1 year of experience building RESTful APIs, authentication systems, and database-driven applications using Laravel and PHP. Skilled in designing API endpoints, managing relational databases, and integrating frontend applications with secure backend services. Strong understanding of MySQL queries, Eloquent ORM, and backend application structure.

## WORK EXPERIENCE

### Laravel Developer

G-Tech Solutions | RYK, Pakistan

April 2025 - October 2025

- Developed RESTful APIs in Laravel for user authentication, product management, and dashboard modules.
- Designed MySQL tables and relationships using Eloquent ORM for clean data modeling.
- Implemented basic role-based access using Laravel middleware (admin, vendor, customer).
- Integrated Stripe and other third-party services for payment processing and notifications.
- Worked closely with frontend developers to ensure smooth API integration and consistent data handling.

### Software Development Intern (Backend)

G-Tech Solutions | RYK, Pakistan

September 2024 - March 2025

- Assisted in building Laravel-based backend modules for internal and client projects.
- Created simple CRUD APIs using controllers, resource routes, and Eloquent models.
- Implemented JWT authentication and validation for secure login and user registration.
- Participated in debugging sessions and fixed issues related to queries, API responses, and model relationships.
- Learned best practices for database indexing, migrations, and backend architecture.

## PERSONAL PROJECTS

### GSaaS | Multi Tenant SaaS May 2025 - October 2025

Technologies: Laravel, MYSQL, Restful APIs

- Built backend APIs for user accounts, subscriptions, and tenant-specific modules.
- Architected backend infrastructure for multi-tenant SaaS platform with tenant isolation at database level .
- Added caching layer (Redis) to reduce repeated queries.

### Sydney Quality Meat | E-Commerce Platform April 2025 - July 2025

Technologies: Laravel, React JS, Bootstrap

- Created backend for product catalog, inventory, and order management.
- Implemented secure Stripe checkout flow with proper validation.
- Built APIs for admin, vendor, and customer dashboards with permission checks.

## TECHNICAL SKILLS

**Backend:** Laravel, PHP, MySQL, RESTful APIs, Eloquent ORM

**Tools & Services:** Git, GitHub, Postman

**Frontend (Basic):** React JS, Next JS, JavaScript (ES6), Bootstrap, Tailwind

## EDUCATION

### Bachelor of Science in Computer Science

University of Engineering and Technology (UET) | Lahore, Pakistan

September 2025 - Present
